

SMARTSTAND

Do you have a collection of sports memorabilia? If you do, the SmartStand baseball display stand may be the perfect solution for you. Constructed simply from injection molded silicone rubber, it provides a sturdy, elegant way of displaying autographed or collectible baseballs. This display stand is inspired by a desire to improve existing baseball holders, which are often expensive and enclose the ball in a hard plastic case which often distracts observers from clearly viewing the ball.

Product Features

- ◇ Simple, elegant, injection-molded silicone construction
- ◇ Capable of displaying not only baseballs but also other round sports memorabilia
- ◇ Cost-saving, versatile alternative to existing display holders
- ◇ Allows for unobstructed view of object on display
